

Layout for Wheelchair Swing

8 x 8 foot slab with about 60" of approach space for wheelchair on one side

Concrete anchor math center to center

Install swing arms 1-5 as shown
and set platform on 2-1/2" blocks

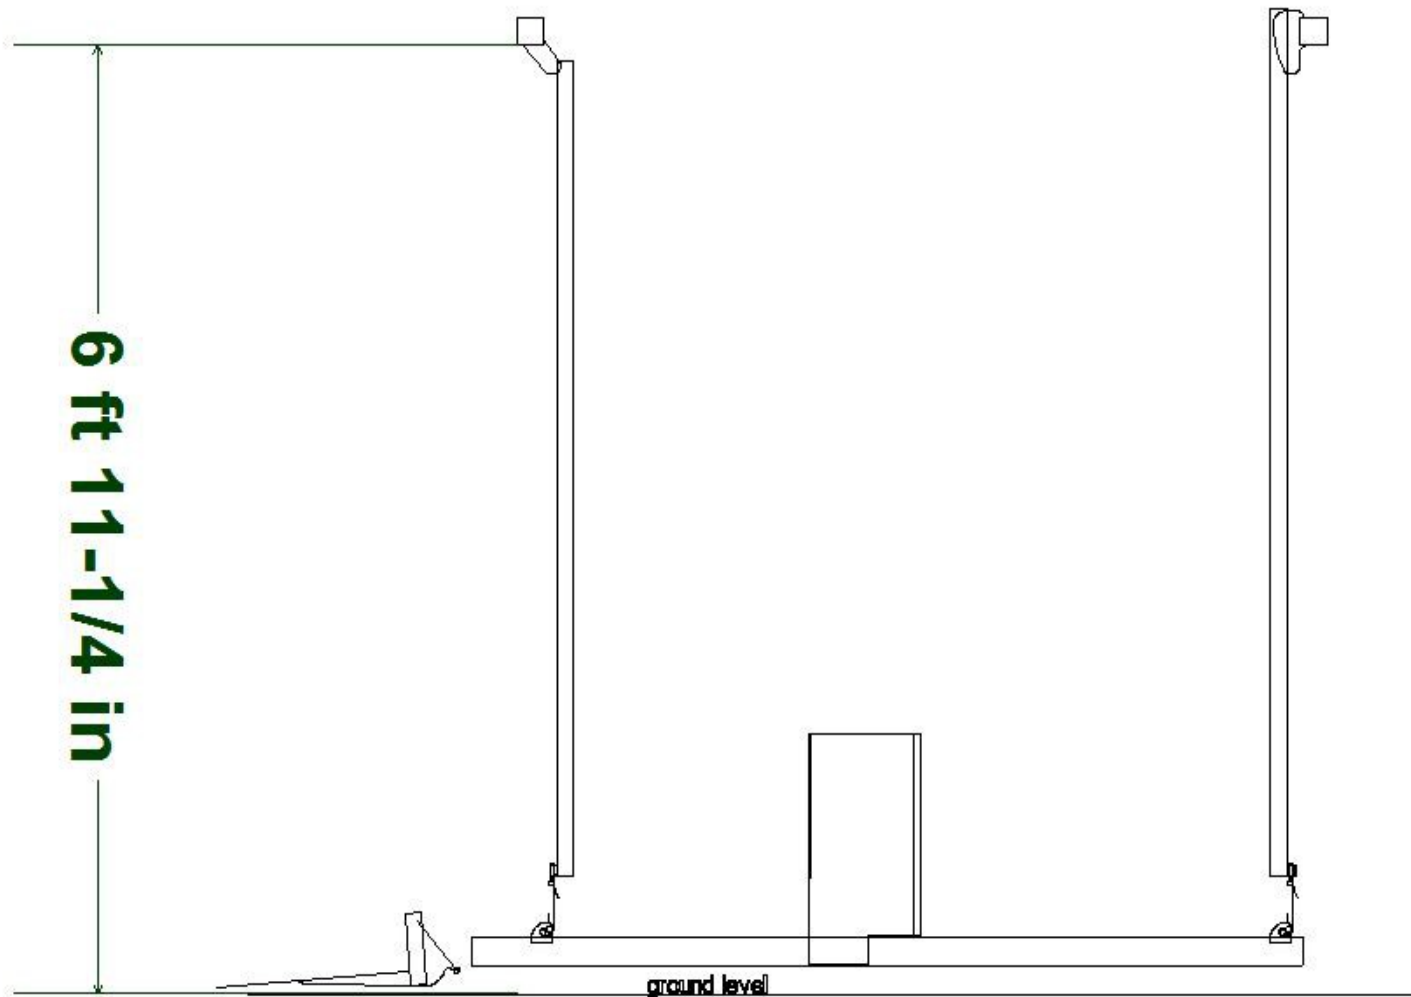

Platform should be level about 2-1/2" off concrete.
The brake should be touching concrete.

Install chairs

From the bottom of the cross bar to the ground should be 83-1/4"
